CAN/CSA C22.2 No. 14-2010 - Industrial Control Equipment

**Additional Information:**

See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for  
additional information

Only those products bearing the UL Recognized Component Marks for the U.S. and Canada should be considered as being  
covered by UL's Recognition and Follow-Up Service and meeting the appropriate U.S. and Canadian requirements.

The UL Recognized Component Mark for the U.S. generally consists of the manufacturer's identification and catalog  
number, model number or other product designation as specified under "Marking" for the particular Recognition as  
published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced  
under UL's Component Recognition Program, UL's Recognized Component Mark: , may be used in conjunction with the  
required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding  
the recognitions or under "Markings" for the individual recognitions. The UL Recognized Component Mark for Canada  
consists of the UL Recognized Mark for Canada:  and the manufacturer's identification and catalog number, model  
number or other product designation as specified under "Marking" for the particular Recognition as published in the  
appropriate UL Directory.

The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL  
LLC.

Look for the UL Recognized Component Mark on the product.
